

INFORMATION ON RUNNING A RALLY

1. Obtaining a location.
Look out for suitable venues, usually places of interest, special events, country houses etc. Venues within your home area will probably make life easier when it comes to organising and marshalling.
2. Consulting the Landowner
Stress that the Club carries an Exemption Certificate from the Department of the Environment which allows us to rally in most places, provided we adhere to the rules laid down in the certificate. Arrange a suitable price. Work on the basis that if you think it is reasonable value then most members will too. (If in doubt give the Rally Co-ordinator a call).

Check possible dates.

Check water and Elsan disposal are available.

Check to see if there are a maximum number of caravans which can be accommodated.

Check access for 'vans. What if it's very wet?

For early and late season rallies electric hook-up would be appreciated.
3. Check with Rally Co-ordinator.
Give the Rally Co-ordinator a call to check possible dates. He will want to spread rallies according to geography etc.
4. Make a Booking
Having checked with the Rally Co-ordinator and decided on a date, make a booking. This would be best done in writing rather than verbally so that no disputes arise later.
5. Before the Rally
Liaise with Rally Co-ordinator for administration, equipment, plaques etc.
