

Lynton Caravan Club

CODE OF CONDUCT

General

1. The Rally Marshal is to be responsible for the conduct of any exempted touring caravan or camping event and for ensuring that those attending comply with this code.
2. The Rally Marshal must ensure that all members are aware of The Countryside Code, and The Caravan Code.

The Venue

3. The Club will take reasonable steps to satisfy themselves that the site to be used is not subject to a relevant order under paragraph 13 of the First Schedule to the 1960 Act (for caravans), or an Article 4 direction under Schedule 2 to the Town & Country Planning (General Permitted Development) Order 1995 (for caravans and camping), and that it is not one where planning permission has been refused or where enforcement action has been taken.
4. The Club will consult the local authority before meeting on land adjacent to sites for which planning permission has been granted (i.e. next to permanent or commercial sites).
5. The Club will agree to move from and avoid any site to which the local authority maintains a valid objection.
6. The Club will not meet on sites adjacent to certificated locations/sites unless the proposed site is clearly differentiated and the risk of interference with local people and other users is minimal.
7. The Club will take reasonable steps to ensure that the siting of units (a caravan, motor home, tent or trailer tent) does not unduly interfere with the activities of local people, their privacy or their enjoyment of their property. They will also ensure that the siting of units does not interfere with the enjoyment by others of the landscape, natural beauty or nature conservation value of the area, particularly in areas designated for their landscape or wildlife qualities.
8. The Club will undertake not to over-use any venue and will consider carefully before holding successive meetings on the same land.

Nuisance

9. Local people should be able to carry on their normal activities when meetings are in progress. The Club will take reasonable steps to minimise disturbance and will investigate and deal with the causes of any complaints made.
10. Care should be taken not to damage the site or the surrounding locality. Trees, fences, buildings, equipment and stock should all be respected.
11. Domestic animals belonging to Club Members will be kept on a lead and under close control. They will not be allowed to run loose on the site or cause disturbance to local people or animals. They will be exercised away from units and those parts of the site used for communal activities. Any mess will be cleared up.
12. The Rally Marshal will identify open space suitable for the playing of games which might otherwise intrude upon or constitute a danger of annoyance to others on or around the site.
13. Noise should be kept to a minimum for the comfort of others on the site as well as people who live or work nearby.

Road Safety and Access

14. The Rally Marshal will take steps to ensure that travel from major roads to a proposed site is not likely to cause undue disruption or difficulties for other road users. Access to the site must be suitable for the number and likely size of units attending the meeting. The arrival and departure of units should be arranged to minimise disruption to other road users.
15. The speed of vehicles on the site should be restricted to 5 mph.

Spacing and Density

16. For health and safety purposes emergency vehicles must be able to gain access to any unit on the site. As such, units should be well spaced and sited so they do not restrict access to, or exit from, any other unit or the site in general. Emergency vehicles should be able to secure access at all times to within 90 metres of any unit on the site.
17. Where a site is being used by both caravans and tents they must be sited en bloc and not interspersed. Trailer tents are classified as tents and must be sited accordingly. Children's pup tents may be erected alongside the parents' unit and should be considered as part of the unit for spacing purposes.

Fire Precautions

18. Open fires and barbecues may only be held with the express permission of the Rally Marshal and should be sited on open ground away from units, vehicles, awnings and any other structures.

19. A fire extinguisher approved to British Standards Institute and/or Fire Officers Certificate will be held on site.

Chemical Toilets and Waste Water Disposal

20. Club Members will act responsibly when disposing of the contents of chemical toilets and waste water and take full account of the need to safeguard water supplies and prevent the pollution of rivers and streams.

21. On-site disposal of the contents of chemical toilets and waste water will be in accordance with the arrangements agreed with the site owner/occupier. Neither will be allowed to foul the ground except at designated disposal points. If there is any doubt about the disposal of waste, the Club, or if appropriate, the Rally Marshal will contact the relevant Local Authority for advice.

Refuse disposal

22. The Rally Marshal should be satisfied that appropriate on-site arrangements are in place for disposal of refuse, or ensure that refuse is taken home.
